Topic: Evolution Artificial Selection Test Question Bank

Summary: Question bank to build assessments

NGSS Standards: *HS-LS-4.2:* Construct an explanation based on evidence that the process of evolution primarily results from four factors: (1) the potential for a species to increase in number, (2) the heritable genetic variation of individuals in a species due to mutation and sexual reproduction, (3) competition for limited resources, and (4) the proliferation of those organisms that are better able to survive and reproduce in the environment.

Size of Question Bank: 10 questions

Question Layout:

1. Questions are in bold
2. If there is an image above the question, that image is associated with that question.
3. Answer choices are A, B, C, D, etc
4. You can choose to include the green hint with the question. This is great for students who need a scaffold, especially if you are using this as a formative assessment.
5. Correct answer is in red.
6. DOK level of each question and type of question is at the bottom of each question.
